Real stories

*"A good percentage of my new clients are a direct result of my XSite."*

*"Today while working on a report, I had a pop-up from the XSites Desktop alerting me to a visitor. I immediately popped open a chat window and asked if I could be of any help. I got a response*

*back asking about a particular service. I quickly gave them some basic info, then capped the chat off by providing our phone number and suggesting they call us so that we could talk further. A few minutes later the phone rang. The person on the other end was the same website visitor. He was amazed by the chat request popping up; so was I quite frankly. We both thought this stuff is way cool.*

*I was able to secure an order as the direct result of the XSites Desktop. It was my first accepted chat and my first order as a result of this technology. I am impressed to say the least. Nice going a la mode!"*

*me' game. It's also very popular with my 'Pay at the Door' clients."*

*"I want to commend a la mode for the XSites' credit card processing. It's great not having to worry about bounced checks or playing the 'ol 'the loan officer never told*

— Jeff Duecker

*and one less worry/hassle down the road."*

*"I also really like that you can accept and process Visa/Mastercard transactions. This keeps my collections down. There's instant money in the bank*

*to express individuality.*

*Also, using XSellerate, I recently sent out a 'Haven't Heard From You In A While' campaign to all of my lender clients. I immediately got a great order from a LOCAL client. I KNOW that was an order that would have gone to one of my appraiser friends in town had I NOT sent that campaign."*
