

Leica DISTO™

The original laser distance meter

Leica DISTO D3 Product Features

- 330ft. measuring range, accurate to 1/16th inch, for fast and accurate distance measurements on a detailed display
- Power Range Technology™ for measuring long distances (approximately 80m) without a target plate
- Includes a tilt function for measurements up to +/- 45 degree angles
- Making indirect measurements with the help of the tilt sensor makes measuring horizontal distances no problem despite any nearby obstructions
- Pythagoras function allows you to determine a length by taking indirect measurements. Very helpful when obstacles block a direct line of sight measurement.
- Includes a flip-out end piece with auto detection for reliable, trouble-free measurement from edges or out of corners
- With the Room Calculations feature, values like the total wall length or wall and ceiling areas are available at the touch of a button
- With the Room Angle Calculation feature, exact calculation of a room angle can be made from only three measurements.
- Auto back light display
- 3 year warranty
- Spray water and dust proof IP54 housing

Includes

- D3 laser meter
- Target plate
- Belt holster
- Hand loop
- 2 AAA batteries
- User's manual
- Quick start guide

Leica DISTO A6 Product Features

- 650ft. measuring range, accurate to 1/16th inch, for fast and reliable measurements on a detailed display
- Power Range Technology™ for measuring long distances (approximately 80m) without a target plate
- Integrated telescopic viewfinder with 2-fold zoom is essential for measuring far away targets
- Integrated Bluetooth technology for reliable wireless data transfer to Pocket PCs and laptops
- DISTO™ transfer software for sending measured values to Excel
- With the Room Calculations feature, values like the total wall length or wall and ceiling areas are available at the touch of a button
- Multifunction end piece provides accurate measurements when measuring from an edge or a corner
- Pythagoras function allows you to determine a length by taking indirect measurements. Very helpful when obstacles block a direct line of sight measurement.
- Navigation keys control the cursor movement in the software with the DISTO so you can leave the pen of your Pocket PC in its holster!
- Spray water and dust proof IP54 housing

Includes

- A6 laser meter
- Target plate
- DISTO transfer software
- Belt holster
- Hand loop
- 2 AA batteries
- User's manual
- Quick start guide
