

# Vault with Exact

## Real stories

*"I used to back up my files to CDs, but I had too many problems... Vault is just easier and faster."*

— Brian Frank  
AFK Appraisal Group

"I send my appraisals up about twice a week to the Vault. It's great to have somewhere to store them offsite."

Ron Stalzer  
A & E Appraisal

"When we got fried by lightning last year, thanks to the Vault we had everything in reports that we had shipped."

Paulette Partin  
Partin Appraisal

"It backs up daily every file as well as my configuration settings...If I have a fire or a crash; I am assured that I will have a back up of the data."

Bill Roark  
Roark Residential Appraisal Services

"I recently had a complete system crash... Using the Vault I was able to get back over 3400 appraisal files."

Pete Deatherage  
Pacific Appraisals

"Vault and exact saved our bacon after Katrina hit...having access to Vault when you're in a jam more than covers the modest annual cost."

Liz Buchanan  
Buchanan Appraisals

"We tried CD's and other online storage methods, and neither were as hassle-free or reliable as the Vault. Plus, the Vault allows us to share appraisal files between our branch offices and remote appraisers."

Michael Elliot  
Aul & Hatfield Appraisals, LC

"It is great if you have more than one computer...work [on] a file at the office, upload it to the Vault and then download it at home."

Tim Hicks  
Residential Appraisal Service

"My #1 computer just crashed...I used the Vault to download all of my current month appraisals to my #1 backup computer and am right where I left off."

Ron Harp  
RAAppraiser.com

"I needed to move my latest text database comments to my other computers...I went to Exact and downloaded the comments that were uploaded previously, and bingo, they were correct and up to date."

Cliff Odom  
Cliff Odom Appraisal Service's Inc.

"My appraisals, sketches, work files, and snapshots are ALL safe yet still available to me from any Internet connection."

Brian J. Davis, SRA, RAA  
Brian J. Davis & Associates

"I go weeks without burning CDs - so the Vault is my only option to be able to be compliant with USPAP and protect myself from unforeseen events."

Richard D Ferris  
Heck Enterprises

"If you are ever in a position where something happens (to the file you are working on)...you just go get last night's backup from the Vault."

John S. Porter  
Certified Appraiser, LLC
