

# FleXApp 1003

► Secure, compliant online 1003 that works with any website

The screenshot shows a web browser window titled "Walker Mortgage Loan Application". The interface includes a navigation sidebar on the left with sections for "1 Borrowers", "2 Property", and "3 Finances". Under "1 Borrowers", there are sub-sections for "Borrower Information", "Current Address", and "Borrower Employment". The main content area displays "Borrower Information" with a "Secure Connection" icon. At the top, it says "Not yet contacted office (405) 706-6886" with "Save" and "Next" buttons. The form fields are: First Name (Bob), Middle Name, Last Name (LaBlough), Social Security Number (987-65-4320), Date of Birth (March 24, 1974), Home Phone ((405) 555-8241), Work Phone ((405) 555-8244), and Marital Status. A blue arrow points from the "Secure Connection" icon to the list of integrated services on the right.

Integrated with:

Byte®  
Calyx Point®  
Encompass®  
MortgageDashboard®  
Avista™  
PCLender™  
XetusOne®

and any LOS that supports  
the Fannie Mae DO/DU 3.2

## Accept secure and compliant loan apps on any website

FleXApp 1003 is a huge step forward in ensuring GLB and TILA compliance. Plug it in to any website and you'll protect borrower privacy and easily be able to get the GFE out within the three day mandate since you're alerted instantly when you receive an app.

You can use it with any website or even stand-alone, and there's no interference with your online banking or any other current systems. With a few clicks, you'll be able to qualify leads, securely accept loan apps, and process credit.

Borrowers love this easy loan app and it's totally customizable so you can get the information you really need, and your borrowers are never overwhelmed. Plus, the help tips and "save" options keep borrowers on track and you off the phone.

Since you're notified of the new app instantly, you can follow up right away to keep borrowers from shopping around.

Of course, the data flows seamlessly to your LOS so you never have to retype. You also receive e-signed disclosures, so you can pull credit to qualify the deal immediately.

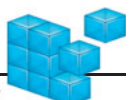

During processing, your borrowers get a private, secure online status page. They can check progress, securely upload paystubs, tax returns, or any other document saving you from time consuming status questions.

Originators have relied on FleXApp 1003 to process hundreds of thousands of loan apps easily and securely. With our 100 day money back guarantee, you've got nothing to lose. Try FleXApp today.

- Secure, encrypted long and short applications in English and Spanish
- Context-sensitive fields, pop-up help screens, and "save" options ensure borrowers never get stuck
- LOS integration eliminates retyping and reduces errors, saving you time
- Standalone and separate — No interference with your online banking systems

# FleXApp 1003

## Interactive, intuitive loan app

- The easiest and fastest way for your borrowers to apply online; Use it on any website, or even stand-alone or as an “apply now” link in an e-mail
- User friendly interface presents only relevant sections to borrowers
- Totally customizable with long and short apps, and you choose required or optional fields, and can even hide fields altogether, to get only the information you want
- Automatically saves so borrowers can return later to finish when they have all their financial information together
- Pop-up help screens give borrowers assistance right when they need it
- Click-through credit authorizations included for free
- Loan app in English and Spanish
- FleXApp 1003 integrates with any LOS that supports the Fannie Mae DO/DU 3.2 format including seamless integrations with BytePro®, Calyx Point® (via the XSites Desktop), and MortgageDashboard®
- No interference with your current online banking system

## Go paperless with DirectFax™

- Exclusive DirectFax feature gathers pay stubs, tax returns and other paper docs, converts them to PDF and attaches it to your loan file
- Turns any fax machine into a scanner using our bar-coded cover page and toll free number (included)
- DirectFax captures paper loan applications and converts them to PDFs for borrowers who don't fill out an app online

*DirectFax turns fax machines into scanners to convert paper docs to electronic ones, and transmits them to the proper loan file on your computer*

- Automatically send e-mail updates to clients, real estate agents, title companies, and anyone else every time a change is made to the loan file

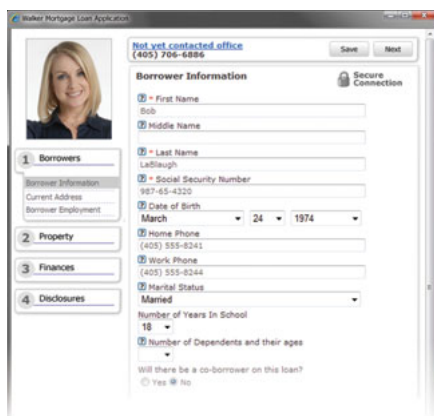

## Security, GLB & Patriot Act Compliance

- Electronic access to documents is restricted to key personnel who develop and maintain the secure server environment
- Monitored firewalls act as a barrier between the Internet and our secure server environment and prevent unauthorized access to any secure servers from outside the building
- Physical access to the general offices is secured by electronic card access and monitored by video surveillance

- Physical access to the data is protected in our network operations center by multiple layers of security — including armed guards
- Under no circumstances do we sell, convey, share or disseminate in any way, any data associated with your clients' loan applications
- Compliance with all applicable state and federal laws requiring notification of a breach of personal information
- For BytePro integrations, an encrypted SSL connection from BytePro desktop software is made directly to our servers
- For LOS systems that utilize the Fannie Mae DO/DU 3.2 format, the DO/DU file is downloaded from our servers to your local computer over a secure HTTPS connection
- Our data center is located in Oklahoma City, Oklahoma. In addition, we have an office and data center in Salt Lake City, Utah. Each center houses at least one redundant system and boasts redundant power employing uninterruptible power supplies and generators capable of supplying them with power for an indefinite period of time. In the event of a disaster affecting the physical location of the Oklahoma City data center, we are capable of becoming fully functional by employing our alternate center

## Fair pricing, support, and training

- One low, annual price — no per-app fees, setup fees, or monthly fees
- 24 x 7 x 365 live tech support based in Oklahoma City, Oklahoma
- Pre-recorded webinars so you can watch and learn at your convenience
- Live, interactive webinars allow for hands on help and real time Q&A

*LOS integration eliminates retyping, avoids costly errors, and saves you time*
